

## SQUARE HIP SHADE

Want big shade on a lean budget? Drop in one of our square or rectangular hip-roof canopies—spanning anywhere from 8 to 60 feet. Choose surface-mount or in-ground posts, set your clearance at 8', 10', or 12', and finish it off with any combo of powder-coated frame and fabric colors you like. Done: serious sun relief for playgrounds, parks, and pools without breaking the bank.

## QUICK RELEASE ELBOW MAKES WEATHER PREP A BREEZE

Wind happens... That's why we offer the Quick-Release tensioning elbow—available as an add-on for practically any shade. Snap the canopy tight in seconds, then pop it off just as fast when coastal squalls, lake-effect snow, or rowdy spring gusts roll in. Remove the fabric and our steel frames are rated to withstand wind gusts up to 150 mph!
